## The Two Universal Constants encoded in Gen 1.1 and John 1.1

The two universal constants known to science and mathematics are the well known one called **Pi - π** and the not so well known one of exponentiation called **‘e’**. The value of **π** is usually taken as **3.142** or **22/7**. It first appears as the ratio of the diameter of a circle to its circumference **C = πD**. This constant is used to calculate the area of circle and the surface area and the volume of a sphere. Its use is truly universal in Physics and other branches of science. For example, a few formulae are,

$$0 = e^{i\pi} + 1 \quad \text{Pure Maths}$$

$$f_0 = 1 / 2\pi \sqrt{LC} \quad \text{Electrical Theory}$$

$$\text{Force on a planet} = 4\pi^2 m r / T^2 \quad \text{Gravitation theory}$$

Any science that involves 2 or 3 dimensional space or solid materials, which is virtually everything, will always involve **π**.

The other universal constant is involved throughout science and mathematics. It was first discovered in the 16th century and is associated with exponential growth. It is found in quantitative science and technology obeying the law of the form  $y = Ae^{kt}$ . It is not always realised by both teachers and students just how important this constant is.

Here are some formulae that uses **e**.

$$x = Ae^{kt} \quad \text{Wave Equation}$$

$$A(x) = x / \text{Log}_e x \quad \text{Distribution of Prime numbers}$$

$$Q(t) = Qe^{-t/RC} \quad \text{Electrical theory}$$

$$e^{ix} = \cos x + i \sin x \quad \text{Pure Mathematics } i = \sqrt{-1}$$

Now why are we discussing these constants as regards the issue of Creation and Evolution ? Special Creation by God is the answer given by the Bible of why we are here on Earth.

1. This paper is taken from the book **‘A Proof Set in Stone’** obtainable from the author Dr Peter Bluer, 15 Patchcroft Rd, Wythenshawe, Manchester, M22 5JG. The Author is indebted to Vernon Jenkins, Bevan Williams and Ian Strachan for their discovery of some of these symmetries and the numerical constants.

First we have to establish the true value of both these constants.

The ancients did not know that **e** existed and had difficulty arriving at a true value of **π**, but today we know the true value of **π** to many millions of places of decimals. We know the value of **e** from the time when it was first discovered.

Now what does the Bible say about these two constants ? Quite a lot and the values will be shown to be within **0.001%** of the true values in both cases. Because these constants are **irrational numbers** like  $\sqrt{2}$  it is not possible that the Bible method of calculating these values can be exact. This is even true for the mathematical formulae that mathematicians use..

Firstly both the Hebrew and Greek alphabets have an unusual phenomena in that not only are they letters that spell words but each letter has a numerical value that was decided in about **200 BC** .The table shows the values.

**Gen 1.1** says '*In the beginning God created the Heavens and the Earth* ' and

**John 1.1** says '*In the beginning was the Word and the Word was with God and the Word was God* '

It is the numeric values of these two sentences that provide the answer.

Below is **Gen 1.1** with the necessary values applied from the table of values. It must be remembered that **Gen 1.1** was written thousands of years ago at the very dawn of history. The following analysis is truly amazing.

It is hardly believable but they are facts written in Scripture in the same way as a name engraved in Stone.

You should now watch the DVD or read the Seven Unusual Numbers booklet. This will give you the unassailable evidence that you need which proves that the Bible is indeed the true revelation to Mankind. It shows by Prime Numbers that the words in **Hebrew of Genesis 1.1** and the **Greek words of John 1.1** are the exactly the right number of words and letters that there should be. No more and no less !

**Now what can we say about the Messiah - Jesus Christ ?**

The Religions of Ancient Rome could not compete with the promise of the God of Israel - **the promise of Eternal life in the Kingdom of God** and with the entrance into his Kingdom having been paid for by the blood of His Christ - **His own Son.**

The Promise is the free gift of eternal life.

You cannot work for it. John 6.29

They said to Jesus,

**“ What must we do, to do the works of God ?”**

Jesus answered them,

**“ This is the work of God, that you believe in him whom He has sent.”**

All the Prophets from Moses, Isaiah, Jeremiah never spoke like this Man !

The Prophets all confessed their Sins but this man never gave the slightest hint that he was a sinner, for in Christ the

**“ whole fullness of the Deity dwells bodily ”** Col 2.9

Also He made the most amazing statements that no Prophet had ever uttered:

Jesus said to them

**“ you will die in your sins unless you believe that I am He ”**

**“ I say to you, If any one may keep my word, by no means will he taste death in the [ coming ] age ”** John 8.24, 51

**“ I am the Resurrection and the life; he who believes in me, though he die, yet shall he live, [ at the resurrection of the dead ]**

**and whoever lives [ again, in this resurrection ]**

**and believes in me shall never die ”** John 11.25

### Gen 1.1

$$\pi = \frac{\text{The number of letters} \times \text{the product of the letters}}{\text{The number of words} \times \text{the product of the words}}$$

We will now apply a most intriguing formula to the **Gen 1.1** and **John 1.1.**

$$28 \text{ ( letters )} \times 90 \times 200 \times 1 \times 5 \times 400 \times 1 \times 6 \times 40 \times 10 \times 40 \times 300 \times 5 \times 400 \times 1 \times 40 \times 10 \times 5 \times 30 \times 1 \times 1 \times 200 \times 2 \times 400 \times 10 \times 300 \times 1 \times 200 \times 2$$

we have the following value

$$28 \times 23887872,000,000,000,000,000,000,000,000,000$$

This can be expressed as  $28 \times 2.3887872 \times 10^{34}$

$$\text{Then } 7 \text{ ( words )} \times 913 \times 203 \times 86 \times 401 \times 395 \times 407 \times 296$$

$$\text{which gives } 7 \times 304,153,525,784,175,760$$

This can be expressed as  $7 \times 3.04153525784175760 \times 10^{17}$

This is the same string of digits as  $\pi$

$$\pi = \frac{28 \times 2.3887872}{7 \times 3.0415352578417576} = 3.1416... \text{ Standard form format}$$

### John 1.1

$$e = \frac{\text{The number of letters} \times \text{the product of the letters}}{\text{The number of words} \times \text{the product of the words}}$$

55	719	58	70	373	31	70	373	58

80,100,70,200	300,70,50	9,5,70,50	20,1,10	9,5,70,200	8,50	70	30,70,3,70,200	
with the God and God was the Word,								
πρὸς τὸν θεόν, καὶ θεὸς ἦν ὁ λόγος								

These words of **Genesis** were written by Moses **before** the numeration of **the letters were known !!**  
 The numeration of the Hebrew came into existence in about **200 BC**.  
**John 1.1** is in **Greek**, **Gen 1.1** is in **Hebrew** a different language.  
**The Star of David** has a history only from about **1000 BC**.

It is very intriguing that a **Mathematic structure** such as **the Hexagram** was chosen as **Israel's** national emblem.  
**\*\* Therein lies the clue that we have all missed! \*\***  
 The structure of **the Hexagon** and **the Hexagram** was discovered while proving by algebra that **37 x 73 = 2701** and also is the **73<sup>rd</sup>** triangular number with **reflective** digits.

This is unique solution which uses the values of **3** and **7**.

**Gen 1.1** is **37 x 73 = 2701 ( 703 + 1998 )**

**John 1.1** is **39 x 93 = 3627**

**Please note, both scriptures have reflective factors**

**2701 + 3627 = 6328** the **112<sup>th</sup>** triangular number.

**112** is the value of **LORD ( 26 ) + GOD ( 86 ) Hebrew.**

**JESUS = (888 = 3 x 8 x 37) + CHRIST = (1480 = 5 x 8 x 37) = 2368**

**6328** is an anagram of **2368 = 4<sup>3</sup> x 37 ( 888 + 1480 )**

**Gen 1.1** with the **5 words 1998 = 2 x 3<sup>3</sup> x 37**

Now **the Hexagon** can be viewed also as **a cube**.

**The cubes** shown are **3<sup>3</sup>** and **4<sup>3</sup>**

To recall, the value of **“The God” האלהים** is **91**.

Exploring the factor **91 = 7 x 13** we have

**4<sup>3</sup> - 3<sup>3</sup> = 64 - 27 = 37** and its Reflection **73** and **73 x 37 = 2701**

**4<sup>3</sup> + 3<sup>3</sup> = 64 + 27 = 91** and its Reflection **19** and **19 x 37 = 703**

The value **703 = “ and the Earth ”** is composed of **407 + 296 = 703**

if we now calculate **3<sup>3</sup> / 91 = 0.296703\*** and **296703 = 3<sup>3</sup> x 3<sup>3</sup> x 407**.

with also **4<sup>3</sup> / 91 = 0.703296\*** and **703296 = 3<sup>3</sup> x 4<sup>3</sup> x 407**.

The value **407 (11 x 37)** is the value of **the sixth word of Gen 1.1**

**These Structures show an origin not of man, but of God—because when Gen 1.1 was written the numeric assignments were unknown.**

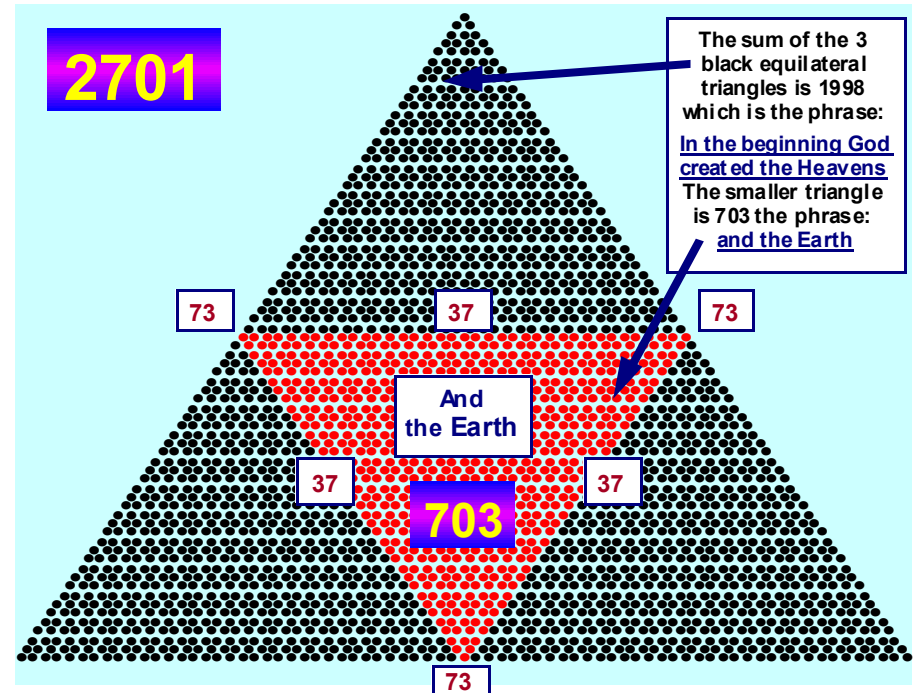

**How did John in his gospel know this 2000 years ago ?**

**Did he study Genesis and realised that π was encoded and then he secretly knew this exponential constant and decided to encode this in his writings ?**

This whole notion is preposterous and the **real truth** is that **God inspired him to write these profound words !**

If we drop one letter the constants are destroyed so it shows that the **actual text has been preserved** by the providence of God.

**GEN 1.1 CAN BE DISPLAYED IN NUMERICAL GEOMETRY**

The triangle above has **2701** elements with side lengths of **73** elements,

**2701 is the value of Gen 1.1, 2701 is the 73<sup>rd</sup> triangular number.**

The inscribed triangle has **703** elements the value of ‘ **and the Earth** ’ with side lengths of **37** elements, which is **37<sup>th</sup>** triangular number.

This triangle fits neatly in such a way as to section off **3** more triangles that have **666** elements and side lengths of **36** elements.

**666 + 666 + 666 = 1998**

Notice **the threeness** of the symmetry, a sign of the triune God.

Here are some further symmetries<sup>1</sup> of **Gen 1.1** which are truly outstanding. If we add together the odd positional values of the words,

$$913 (1) + 86 (3) + 395 (5) + 296 (7) = 1690 = 10 \times 169$$

The even positional values,  $203 (2) + 401 (4) + 407 (6) = 1011 = 3 \times 337$

First the value **1690** is 10 times

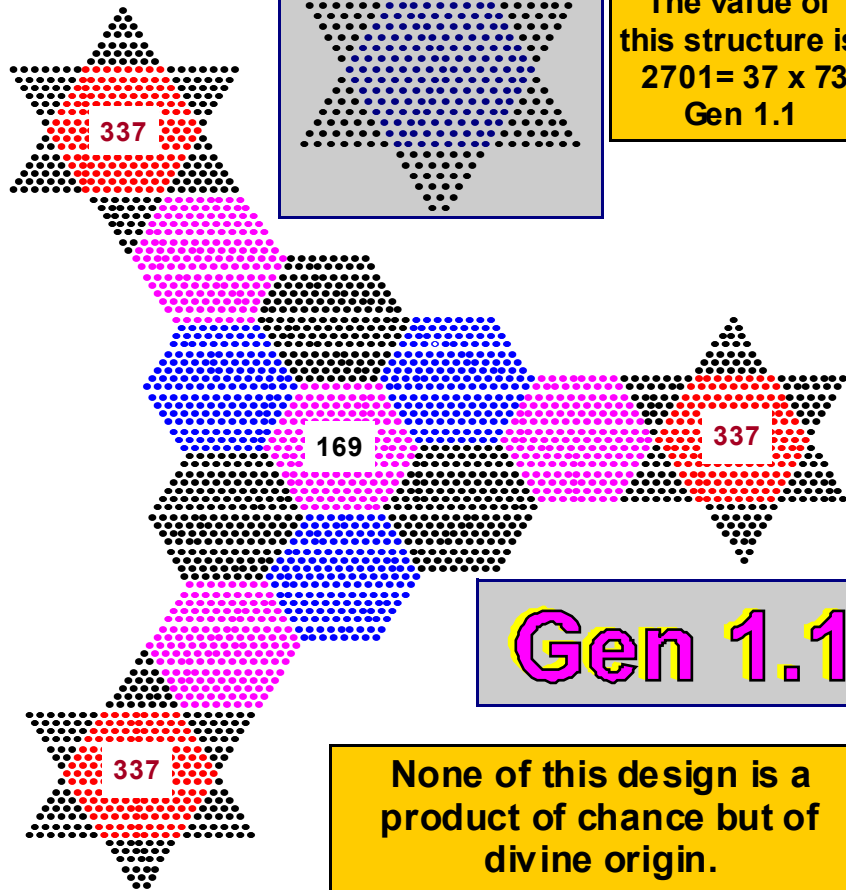

the 8<sup>th</sup> Hexagon number ( **169** ).  $1690 = 10 \times 169$ .

Also the second value

**1011** is 3 times the 8<sup>th</sup> Hexagram number ( **337** )

The value of this structure is  $2701 = 37 \times 73$  Gen 1.1

**Gen 1.1**

None of this design is a product of chance but of divine origin.

Many people ask me why **373** ?

The number **373** is a very interesting value. From the look of it you can see it is a palindrome - that is, it reads the same value backwards as well as forwards. Looking again it will separate into **(37)3** or into **3(73)**.

And **73** is the reflection of **37**.

**373** is the 74<sup>th</sup> prime number. You might ask why is that so relevant ?

The value **74** is  $2 \times 37$  and **74** is the neighbour of **73**.

Now it gets interesting !

On investigation **37** is the 12<sup>th</sup> prime number and **73** is the 21<sup>st</sup> prime number and we can now observe that **12** and **21** are the reflections of each other in just the same way that **37** and **73** are reflections.

The neighbour of the value **373** is the number **374** which when separated gives **(37)4** and **3(74)** which is of course  $3(2 \times 37)$ .

Let us now find the product of  $37 \times 73 = 2701$ . Is this unusual ? Yes !

Finding the sum of **2701** and its reflection **1072** gives **3773**.

$$\text{Now } 3773 = 7 \times 7 \times 7 \times 11 = 7^3 \times 11 [ 3 \ \& \ 7 ]$$

All this from **373** is a strange phenomenon !

Upon examination of **2701** it is the 73<sup>rd</sup> triangular number i.e. the sum of all the values of  $1 + 2 + 3 + 4 \dots 36 + 37 + 38 \dots 71 + 72 + 73 = 2701$ .

There many more results concerning these numbers **3** & **7** and it can be shown by algebra that only **3, 7** have these remarkable properties.

The question is where on earth did I get this starting number **373** ?

The answer is from the Bible.

**2701** is the value of **Gen 1.1** and

**373** is the value of 'Word' the name of **Jesus Christ**.

Now **Jesus** has the value  $888 = 3 \times 8 \times 37$  and

**Christ** has the value of  $1480 = 3 \times 5 \times 37$  Both multiples of **37**

The name of the **Messiah** (Christ)  
**Word** (  $\lambda\omicron\gamma\omicron\varsigma$  ) =  $30,70,3,70,200 = 373$
